

April 12, 2019

To my fellow classmates,

My name is Samyukta, and it is with honor that I write to you this letter of intent to run for the position of President for the Class of 2020.

I have had the privilege to serve as the Class of 2020's Marketing and Public Relations Officer (MPRO) for the past two years and was the Executive MPRO for the past semester and being a part of the Class Officer Collective has been a highlight of my time here at CWRU; I have worked with some dedicated and passionate students and have truly enjoyed the traditions we have worked to uphold and improve.

My goal as a class officer is to make everyone's experience here at CWRU memorable and unique. By being a part of COC, I can accomplish this through my capabilities to get things done efficiently and responsibly. I am qualified to be the Class of 2020's President because I know the hard work and dedication it takes to be a leader among peers. I understand the commitment I must make to any organization I am involved with, and I am willing to put in the work to fulfill the duties of a COC officer. I am excited to use the skills of creativity, organization, and vigilance that I have developed as a leader, both in the COC and out, and apply them to carry out the duties of President and make your time here the best it can be.

I want to be a part of traditions that have been upheld for decades, and I want our campus to get involved in them as well. I enjoy challenges and seek out opportunities to grow as an individual, which is why I believe I will thrive in an organization like COC. My aim is to make everyone's experience here at Case the most memorable and unique by being a part of COC. I believe that I can accomplish that through my capability to get things done efficiently and responsibly. I will be the strongest advocate for students' interests. I will strive to create an open and fun atmosphere on campus where students will be proud to call themselves a CWRU Spartan. I am excited by the possibility of filling the role of President for the Class Officer Collective, and I hope you feel the same and vote for me!

Thank you and sincerely,
Samyukta Venkatesh
